

Transformers 1-phase

"EI" transformers 4 to 550VA in horizontal construction with spacers. Compact construction for units that allow screwing through from the back of the mounting plate. Space-saving, with free ends or solder lugs.

BREMER 1520-en

Design:	Horizontal with spacer bolts	Ambient temperature:	ta = 50°C (ta = 50/B)
Type series:	"EI" - horizontal	Temperature rise:	ΔT = ca. 40...50K (50/B)
Terminals:	According to customer requirements	Core material:	Standard material

Core-Type	Power approx. VA	Insulating class	Weights copper / total kg	Dimensions without terminals			Mounting dimensions	
				Width B mm	Depth T mm	Height H mm	C x D mm	For screw
EI 42/14,8	4	B	0,1 / 0,3	42	35	35	35 x 28	M 3
